# INTRODUCTORY

---

This is the forty-first volume of the Fort Wayne City Directory, compiled by R. L. Polk & Co. It would seem that it would be an easy matter to publish a Directory after so many years' experience, but, although the experience of all these years have been of infinite value, yet the same difficulties and same problems arise year after year and have to be overcome. Among many people there are many opinions and ideas. Repeated calls have been made to every home, shop, office, factory and sales-room. Several thousand people changed their residence, their occupation or their business location or firm name while the canvass was being made, and this ceaseless movement of changing from one place to another multiplied the difficulties of directory making.

It has been said it is the duty of every patriotic citizen to learn about his own city, to post himself thoroughly about all the people and all the institutions, and the City Directory is the only means by which one may become thoroughly acquainted with the city. A man may live fifty years in one community and be about and among the people, but if he does not use the City Directory he does not know anything about the community, any more than an illiterate man may know the history of the world merely because he has lived in it.

No work so thoroughly and fully represents the people as the City Directory and the opinion one may form of a city is based very largely upon it and it is a matter of considerable importance to each and every individual that he is properly represented in the alphabetical list of names and that his business he indexed and classified under the various lines of trade where he belongs.

More goods are bought and sold through the classified lists of the City Directory than by any other means in the world. It has become the custom of all intelligent people to look over the list of those that sell before they buy. The Directory is increasing in usefulness and popularity each year.

The statistical matter of first importance to a community is its population, because a city is rated according to its growth.

To base an accurate opinion of the future one must be able to estimate the increase or the decrease in population. This volume contains 41,382 names, which, multiplied by 2 to represent married women and children not included in this count, indicates that Fort Wayne has a

1705328

population of 82,764. The growth which the city is enjoying is from natural growth, and in no way what is termed a "boom," but simply a natural, healthy growth, which nothing can appear to hinder or in any way check.

Great commercial prosperity and substantial increase in realty values, the patriotism of the citizens and their enterprise, their ever-ready willingness to respond to any call that will be to the good of the city has given to Fort Wayne that municipal immortality which larger cities hold in song and story.

The splendid transportation facilities of Fort Wayne, which all citizens hope to increase when the canal from Toledo to Chicago shall be an established fact, puts it at the head of any city of its class. With the indomitable energy of its citizens, Fort Wayne is bound to maintain the supremacy which it has gained and achieve new triumphs in the future.

## SOME SUBSTANTIAL STATEMENTS

“Fort Wayne, from which the name of the city is derived, was erected in 1794 by General Anthony Wayne at that point where the St. Mary’s and the St. Joseph’s unite to form the Maumee river, which flows into Lake Erie at Toledo.

It had been an Indian trading post for a hundred years previous, its Indian name being “Kekionga.”

It had been held in earlier times by the French, who built a fort for its protection a short distance west, on the St. Mary’s river and later by the English, who constructed a fort on the St. Joseph’s, a short distance north of the site chosen for “Fort Wayne.”

Within its corporate limits it has nine miles of rivers—five of the St. Mary’s, two of the St. Joseph’s and two of the Maumee. All of these river banks within the city, are to be acquired by the city, and are to be parked and boulevarded.

Fort Wayne has never had a “boom,” and it has never stopped growing. Its population in 1840 was 2,050; in 1850, 4,282; in 1860, 10,388; in 1870, 17,718; in 1880, 26,880; in 1890, 35,393; in 1900, 52,057; in 1910, 71,500; in 1911, 75,448; in 1912, 76,320; in 1913, 79,520; in 1914, 82,764.

It has four east and west trunk line railways—the Pittsburg, Fort Wayne and Chicago (Pennsylvania lines), the Wabash, the New York, Chicago and St. Louis (Nickel Plate), and the Lake Shore and Michigan Southern. It has two north and south trunk lines—the Grand Rapids and Indiana, and the Lake Erie and Western. It is the western terminus of the Cincinnati, Hamilton and Dayton.

It has six miles of interurban railways, with others building and in contemplation. These railways have a direct connection with the great interurban systems of Ohio and Indiana.

Within a radius of about 200 miles Fort Wayne is about equidistant from her sister cities of Indianapolis, Toledo, Detroit, Cleveland, Chicago and Grand Rapids.

It has no slum district. It is a city of homes, the proportion of home owners to its population being greater than in any city of its class in the United States.

It is known as the "Summit City," as it sits upon the crest of the water shed, from whence the waters flow east to the St. Lawrence and west to the Mississippi.

It is on the line of the proposed deep water way known as the Toledo, Fort Wayne and Chicago Trunk Line Barge Canal, which will unite the waters of Lake Michigan and Lake Erie.

It has the best distributed system of parks of any city in the state, eleven in number, with five others now being acquired. When these are secured there will be a park within ten minutes' walk of the home of every citizen in Fort Wayne.

It has a commercial club with a membership of 937, to the members of which the city is indebted for the new Anthony hotel, costing for grounds, buildings and furnishings, over \$500,000.00.

It has the finest county court house west of the Alleghenies, designed by a Fort Wayne architect and built without a dollar of "graft" going into it.

It has four national banks with assets of \$18,483,137, 000.53; four trust companies with over \$9,758,285.00 and four private banks.

It owns its own waterworks with an ample supply of pure deep rock well water, the value of the plant being estimated at \$2,000,000.00; the rates are the lowest in the State. There are one hundred and seventeen and three-tenths miles of pipe.

It owns its own electric lighting plant for both city and commercial purposes, valued at \$350,000.00 and is

already earning a net annual profit over operating expenses and renewals of \$50,000.

It has fifty-four and four-tenths miles of paved streets, thirty-one and one-half miles being of asphalt.

It has the finest public market house in Indiana.

It has over fifty churches; three large public hospitals; three fine opera houses; nineteen large public school buildings, several with fine playgrounds attached, and many fine parochial schools; the handsomest Scottish Rite cathedral in the world; a beautiful Masonic Temple, and elegant country club, and a \$100,000.00 Young Woman's Christian Association.

It is one of the best lighted cities in the country, all of its business section being illuminated with five-light ornamental lamp posts, placed seventy-five feet apart on both sides of the street.

It has five daily newspapers, three of these of very wide circulation, covering all of northeastern Indiana and northwestern Ohio.

It has some of the largest manufacturing plants in the United States, among which are the Pennsylvania shops, which corporation pays out monthly in wages in Fort Wayne \$300,000.00; the Fort Wayne Electric Works; the Bass Foundry and Machine Works; the Wayne Knitting Mills, the largest full-fashioned hosiery mill in the country, employing 3,000 people; the Packard Piano Company; the Western Gas Construction Company; the Bowser Oil Tank and Pump Company; the General Electric Lamp Factory, and many others.

Postoffice receipts in 1913 were \$361,768.82; and the employes numbered 101.

The bank clearings for the year 1913 totaled \$65,002,707.54.

## *Why Carry Accident Insurance?*

**BECAUSE** it will repay you for time lost through personal injury.

**BECAUSE** it will pay your doctor, and your grocer, and your rent while you are laid up.

**BECAUSE** accident insurance becomes LIFE INSURANCE, should death result from a mishap. The Beneficiary receives nest-egg sufficient to keep the wolf from the door of the dependent ones.

There is no question about the value of accident insurance. The only question is how to get the best policy for the least money. And the answer is—In a mutual association like ours.

**FORT WAYNE MERCANTILE  
ACCIDENT ASSOCIATION**

(Continued from preceding page.)

## **Fort Wayne Mercantile Accident Association**

IS STRICTLY MUTUAL. The only stockholders are the members, the policy holders.

Policy holders are assessed ONLY for enough to pay the few losses and carry on the business.

The expense of running the business is slight. There are no high salaried officers; just a small and efficient office force.

Our cost for the past 21 years has averaged LESS THAN TEN DOLLARS a year, including the annual dues of \$1.

We have had but seven deaths in 21 years. This low average is because we accept only the safest of risks, such as commercial travelers, business and professional men.

And in spite of our low cost we pay as much as do stock companies that charge \$25. a year. We pay, for total disability, \$25. a week, not to exceed 52 weeks; for partial disability, \$10. a week not to exceed five weeks.

### **Death Benefit, \$5000.00**

We pay promptly upon receipt of proofs.

The safest, promptest paying accident insurance for the least money is the policy issued by the
